SECOND QUARTER ACCOMPLISHMENT REPORT

R E H I Y O N

E-HUB

Excellence. Hardwork. Unity. Balance.

INTRODUCTION

Keeping with the banner statement of having a *Mahusay, Matino at Maasahang tanggapan ng Gobyerno*, DILG Regional Office 2 kept the momentum going as it concludes the 1st quarter of fiscal year 2019 with a myriad of accomplishments from the various programs, projects and activities (PPAs).

The penultimate factor contributing to these achievements is the management style of Regional Director Jonathan Paul M. Leusen, Jr., CESO III, the leeway given to unit heads and Division Chiefs to formulate their own strategies in implementing their respective PPAs has two intended benefits: (1) it encourages creativity and innovation in project implementation and (2) it boosts employee morale being given a greater avenue to exercise such liberty.

This macro management style has been employed by RD Jun since assuming office in 2017 lending truism to the adage that “too many Chefs spoils the soup.” Every office, division, and unit of DILG R2, by always going the extra mile and performing tasks above and beyond the call of duty ensures the timely accomplishment of PPAs which in effect translates to an efficient and effective government service which ultimately redound to the benefit of our stakeholders and eventually the General Public.

Couple this dedication with the above par leadership and management skill of DILG R2 admin and the future of the regional office is brighter than ever before. As we turn toward another chapter of this fiscal year, the bar that has been set this quarter shall continue to be raised and the reigns of mediocrity shall never entangle what ought to be fulfilled.

Peace and Order Councils Performance Audit

The DILG RO2 thru the Local Government Monitoring and Evaluation Division conducted the 2018 Peace and Order Councils Performance Audit. The Audit was conducted during the latter part of April until the first week of May 2019.

The Audit was conducted to assess the performance of the Regional, Provincial, City and Municipal POCs on their Functionality. Other objectives are to determine the best practices conducted and initiated by the POCs and POC Secretariats; determine possible interventions and improvement strategies for POCs and POC Secretariats; and create a platform for evaluation, assessment and sharing of best practices between and among the POCs and POC Secretariats.

Following are the strengths of the Provincial Peace and Order Councils: they give priority to Peace and order Programs; they have very good innovations and some PPOCs came up with good packaging of their documents. As for the common issues encountered, the PPOCs encountered problems in uploading data in the PCMS.

After careful review of the City and Municipality POC Audit Results it was noted that innovations undertaken by the PNP in their own initiative or in partnership with other stakeholders were not considered as innovations of the C/M POC. It was subsequently agreed upon that this innovations could be considered as innovations of the POC so long as it is properly documented and the activity is included in the POPSP PCMS. It was also recommended that Secretariat should undergo skills training to include discussion of their roles and responsibilities to ensure immaculate records-keeping and timely submission of reports. The late submission or uploading of reports in the POPSP PCMS was also a common challenge among the POCs. To address the issue, it was suggested that the Province must organize a Technical Working Group to ensure alignment of AIP, POPs Plan and Budget and also to monitor implementation of the POPs Plan. In

addition, it was requested that POC Provincial Focal Persons be capacitated in POPs Planning and Encoding in the POPSP PCMS.
